

The photo of SPP in the News of 11/29/86 and the "man for all seasons" article:

an unqualified popular success. Many many people have congratulated me on the article and photograph. I went into the News on 11-5-86 and thanked again Rosemary and Phil and said that I was very pleased. "The headline is wonderful," said SPP. "Rosemary did the headline," said Phil (as Rosemary beamed.)

on 11/29/86  
- WSP came out in the kitchen with the newspaper in hand and said: "Do you know that there is a page and a half article about you in the Carbondale News?" SPP: "Yes." WSP was filled with pride as he spoke. I was very touched/pleased.

- HCRP, DUP & Holly have said nothing about the story.

- I purchased about 6 copies of the 11/29/86 issue and have salted them away - one Xerox copy has been pasted down in these pages. I also obtained the page negative of the SPP story. That too has been salted away - in my negative file.

the publication of  
- this News story by Matt <sup>Reavy</sup> is of such significance in SPP's biography that it should probably be listed as a major event in my résumé.

the corn is for cold weather energy; the birds' appetite has increased greatly now that cold weather is upon us; they eat the corn but are not fond of it.

Mildred and Chanticleer do not appear to like this whole corn; I shall probably feed it to the chipmunks & squirrels.

Portrait:

Adlai E. Stevenson: Politician, Diplomat, Friend  
by Alden Whitman and the New York Times  
Read in the period: 10/9/86 - 10/26/86  
(282 pages) -

an excellent portrait; many lengthy quotations from Stevenson's speeches & papers.
